## Isotonic Fluid Replacement Drinks

Our Isotonic Fluid Replacement Drinks have been specifically formulated to enhance fluid replacement during exercise, sports or extreme working environments, thereby preventing dehydration. This product ideally contains a broad spectrum of complex carbohydrates, for sustained energy release, to enhance performance at work or during exercise. The advanced formulation we use contains electrolytes and minerals such as Sodium, Calcium,

Magnesium and Potassium. These assist in fluid retention and assist with the correct hydration thereby reducing cramping. These products contain no preservatives and are lightly flavoured for continuous fluid intake.

These are available in five flavours: Orange, Naartjie, Lemon/Lime, Wild Berry and Cherry Grape.
